FEATURES

- Suitable for interior and exterior applications
- Great substitute for real stone, especially for applications that require lightweight properties (e.g. skylights) and backlit applications (e.g. bar counters, feature walls)
- Enjoy the full length of stone or zoom into your preferred section to customize designs, sizes and layouts that fit your application perfectly
- Extremely deep, vibrant colors
- Sharp lines
- High photo-quality prints
- Easy to clean and maintain
- Water, stain and scratch-resistant
- Durable, tested for no color fading

TECHNICAL INFORMATION

- High Resolution Graphic Interlayer laminated between two pieces of glass
- Maximum size: 1570 mm x Length: Larger custom sizes to enquire
- Thickness: Min. 5+5mm
- Material: Tempered/Non-tempered, Clear/low-iron glass

Configurations:

- Two-sided view for doors and partitions: Transparent, Translucent
- One-sided view for backlit: Translucent
- One-sided view for cladding on wall: Opaque/ Reflective (Mirror-back)
