

BIANCA BOARDS™

WHERE BRIGHT IDEAS ARISE

Dry-erase writing glassboard and high-definition
projection surface

TRANSFORMING SPACES
WITH
GLASS & ART

The newest version of the traditional whiteboards – clean, sleek, space-saving glass writing boards offering the best writing and projection experience for your office, classroom, boardroom and your other living spaces.

The whiteboard was invented sometime in the late '50s to early '60s, but it was only in 1975 that it started to gain significant popularity. Since then, whiteboards started replacing their predecessor, chalk blackboards; and have been used in conference rooms, classrooms and all other spaces.

The early whiteboards were not easier to clean than its predecessor. But over time, whiteboards have evolved and have offered an easier writing experience. Durable whiteboards were usually made of porcelain, aluminum, or enamel-coated steel.

With continuous evolution, these steel-based white boards discovered a home in a new medium; glass. Today, the glassboard is the new modern day whiteboard, serving multiple functions.

ANTI-GLARE SURFACE FOR BETTER WRITING OR IMAGE DEFINITION

Level up your traditional whiteboards with something more refined and functional. Choose a Bianca Board for a clean, efficient writing surface or for a high-definition projector screen.

- Tempered glass whiteboard ensuring durability
- Stain- and ghost- resistant for superior erasability
- Magnetic quality allows instant posting
- Framed or frameless options for seamless fit with any interior style
- Available as standalone unit or in custom sizes to blend perfectly into spaces
- 10-Year Warranty on surface – guarantee for no ghosting
- Quality image definition for projection

- Conference tables
- Corporate breakrooms
- Cupboard doors
- Desks
- Kitchen walls
- Lobbies
- Lounges
- Office boards
- Partitions
- Tables and meeting rooms

BOARD TYPES

1 POLISHED

For heavy writing usage

Bianca Board Polished offers excellent writing surface. It is recommended for heavy writing, is tempered and can have a magnetic capability.

Writing

Reflective

Magnetic

Tempered

Max sheet Size

1800 x 2400mm

2

MATTE

For heavy writing usage with an anti-reflective surface feature

Bianca Board Matte is highly recommended for writing. It is tempered and has an anti-reflective property, making it the best writing surface. It can also come with magnetic capability.

Writing

Magnetic

Tempered

Max sheet Size

1800 x 2400mm

3 PROJECTOR

Designed for projection

Bianca Board Projector offers a high-definition projection surface, perfect for any conference room, classroom, or office. It is tempered and anti-reflective; can have a magnetic capability, and can also be used for light writing.

Projection

Magnetic

Tempered

Max sheet Size

1600 x 2150mm

Important Note: BB Projector has a surface that has been treated with a special acid-etched configuration that allows for the best balance of projection capability and writing functionality. Hence, the writing surface is slightly less erasable as compared to the polished option. It is still a writable surface that has to be maintained with regular glass cleaning liquid and cloth. Bianca Board Projector is recommended only for wall areas that require projection use. If the wall is meant for writing only, Bianca board Polished is recommended.

ABOUT SYNERGRAPHIC DESIGN

Synergraphic is a premier art+design studio that provides interior and architectural art glass solutions, bespoke lighting, installations, sculptures, features and murals, for indoor and outdoor spaces.

Since the company's formation in 1986, Synergraphic has remained at the forefront of cutting edge design, having created hundreds of features in glass and mixed media for projects in more than 15 countries – including St Regis Singapore, Partners Monument at Taipei 101 and the Crystal Pyramid in Brunei.

Synergraphic also provides a wide range of standard finishes, materials and glass elements to achieve excellent design concepts; and delivers interior pieces to make functional spaces work without compromising beauty. Our services include consultancy, art and design, prototyping, sourcing, installation, and more. We are committed to continually finding new means to increase the value of all kinds of spaces through glass and art.

Synergraphic is firmly dedicated to “The Art of Glass and All Things Beautiful”, and is the ideal partner for architects, designers and artists seeking to turn their visions into reality.
