

The background of the entire image is an aerial topographic map. It features brown and tan contour lines representing elevation, with blue lines indicating water bodies. A white rectangular box is overlaid on the left side of the map, containing the title and volume information.

EARTH TALES

VOL. II

FOREWORD

Earth Tales Vol II presents the finest selection of designs adapted from rare stones of the world. Through this collection, Synergraphic captures the natural beauty of mineral crystals and stones and makes them available to the world of architecture and interiors in glass form.

Showcasing the distinct character of high-quality precious stones, including the uniqueness of their colours, gradients, and patterns, Earth Tales Vol II is sure to leave a mark of elegance on all types of spaces.

While providing lofty aesthetic value, every piece in this collection is able to meet high scale functional demands. All designs fit to a wide range of applications and are built in compliance to international and environmental safety standards.

With over 34 years of innovation and technical expertise with glass, we bring to you the new meaning of opulence in Earth Tales Vol II. Within this catalogue is a splendour of glass art to feast on. Discover the key to the many more pathways you can take in transforming your spaces through glass and art.

EARTH TALES COLLECTION STORY

Earth Tales Vol II is our finest selection of rare gems and crystals, designed to bring alive the opulent beauty of natural stones close to man. The unique inherent colours, brilliance and swirls in every stone in this collection invite moments of awe and inspiration, and bring to remembrance the matchless glamor of creation.

From subtle neutral palettes to intricate sophisticated ones, stones from EARTH TALES VOL II can perfectly create a stunning or subdued atmosphere, or establish an adventurous or laidback mood. It can highlight a feature such as a countertop or backsplash, or fill an entire surface to complement the overall look and feel of a space.

Panels from the series are high quality prints on glass, making them a wonderful substitute for real stone in applications requiring lightweight properties such as skylights and lifts. Panels are also available for configuration in size, scale and orientation, as well as translucency and reflectivity, making them extremely versatile for a wide range of applications.

As every piece is applied uniquely, these panels provide an alluring point of interest and continued source of inspiration for the home, office, retail, and hospital or hotel space.

The EARTH TALES VOL II Series is brought to you by passionate photographers who have journeyed to uncover mined gems and stones, and upon careful curating, polished and photographed each one in extremely high-resolution in order to preserve and perpetuate its beauty for all.

TECHNICAL CHARACTERISTICS SPECIFICATIONS

Description:

High Resolution Graphic Prints on Glass

Maximum size:

1800 mm x 3600 mm

Larger custom sizes possible - please enquire with us

Thickness:

Monolithic (6 / 8 / 10mm)

or Laminated (5+5 / 6+6mm)

Glass Type: Low Iron

Technical Specifications:

Tempered or toughened glass conforming to

BS EN 12150, BS EN 12150-1:2015, ANSI Z97.1-2015 and

CPSC 16 CFR 1201 standards

Viewing: 2-sided or 1-sided view

Surface treatment option:

Matte / Polish

Holes & Notches:

Holes in tempered glass must be drilled before heat processing. Size of hole should be greater than or equal to the glass thickness and must be located with a minimum distance of 30mm from any edge. For wall cladding applications, back of glass will have a paint backing for mounting purposes. Glass configuration is to be advised depending on application and size of panel required.

Features:

- Suitable for interior and exterior applications
- Great substitute for real stone, especially for applications that require lightweight properties (e.g. skylights)
- Enjoy the full length of stone or zoom into your preferred section to customize designs, sizes and layouts that fit your application perfectly
- Extremely deep, vibrant colours
- High photo-quality prints
- Easy to clean and maintain
- Water, stain and scratch-resistant
- Durable, tested for no colour fading
- Heat resistant, suitable for applications such as backsplashes
- Highly functional and decorative

RECOMMENDED APPLICATIONS

ABOUT SYNERGRAPHIC DESIGN

Synergraphic is a premier art+design studio that provides interior and architectural art glass solutions, bespoke lighting, installations, sculptures, features and murals for indoor and outdoor spaces. Since the company's formation in 1986, Synergraphic has remained at the forefront of cutting edge design, having created hundreds of features in glass and mixed media for projects in more than 15 countries - including St Regis Singapore, Partners Monument at Taipei 101 and the Crystal Pyramid in Brunei.

Synergraphic also provides a wide range of standard finishes, materials and glass elements to achieve excellent design concepts, and delivers interior pieces to make functional spaces work without compromising beauty. Our services include consultancy, art and design, prototyping, sourcing, installation, and more. We are committed to continually finding new means to increase the value of all kinds of spaces through glass and art.

Synergraphic is firmly dedicated to "The Art of Glass and All Things Beautiful", and is the ideal partner for architects, designers and artists seeking to turn their visions into reality.
